New Grain Market, Karnal, Haryana

India's only feed exposition

www.feedtechexpo.com

Organizer

Knowledge Partners

Business Platform for Feed Industry

Be a part of only feed technology focused event of the country

EXHIBITION

Feed Tech 2017 is a trade show offering cutting-edge innovation and educational opportunities for animal nutrition industry, along with crucial networking for beneficial business relationships.

The feed industry expected to grow by 8 per cent to 40 million tonnes by 2020, needs to bring in knowledge about the role of latest technology for better efficiency, quality & profitability.

The exhibition will bring suppliers presenting complete value chain of feed industry from ingredients and additives to finished products.

You are invited to be a part of this gathering at an affordable price. To know more about the event please visit www.feedtechexpo.com

CONFERENCE

While the consumption of animal products make a crucial contribution to food and nutritional security of millions of people around the world, animal feeds play a leading role in the global food industry. Feed is the most important factor, rather the raw material for raising animals for the production of milk, meat, fish and poultry, to be used for human consumption as the variety of foods, rich in proteins. India, the fourth largest feed producing country in the world is inherently and perennially facing feed shortage. Recently, the country has experienced two consecutive years of failed monsoon. This has caused an increase in the cost of raw materials, and hence, has resulted in higher end-product price as well.

It is the high time that the feed industry comes forward for a brain storming session to discuss the different strategies that needs to be adopted for a better and sustainable feed industry in India. With this idea in mind, the theme of the conference has been conceptualized as

“Innovative strategies for sustainable value-chain for Indian feed industry”

A trade show to bring visibility, credibility and a lot more benefits for the participating brands. So don't miss the opportunity and be a part of the event displaying the innovations of the feed industry

Glimpses of FTE 2016

Exhibitor Profile:

- Ingredients
- Additives & premixes
- Laboratory equipment
- Storage technology
- Milling technology
- Silage production technology
- Animal health technology
- Packaging material & technology
- Gearboxes/Transmission technology
- Drying technology
- Boiler/Power generation technology
- Forage harvesting technology
- Hydroponic technology
- Automation technology
- Feed producer
- Feed production technology
- Ancillary equipments

Visitor Profile:

- Feed millers
- Integrators
- Co-operatives / Federations
- Dairy, Poultry and Aqua Farmers
- Feed traders and distributors
- Trade association
- Policy makers
- Trade media

WHY YOU SHOULD BE THERE?

- 2nd edition of **Feed Tech Expo** concurrent to subject specific conference which aims to generate greater appeal for the event within target market
- The tie-up with leading research association for Agri & Livestock industry - Creative Agri Solutions affirms the goodwill it generates to facilitate better exhibitor & visitor participation in the event
- To display latest feed technologies for efficient and quality feed production among industry professionals
- A high-voltage marketing campaign using various media channels will ensure turn out of quality buyers from across the target markets

Business Event for Feed Industry

Your customers, future prospects and competitors will be there...
